

Will spend several months in Pyeung Yang, Moffett
All Christians in North alive and well.

Feb. 20

Seoul Korea January 12 1895

Dear Dr. Ellinwood:

54
Before this you will have received
the reports from our Annual meeting which passed off
most profitably. Certainly we have every reason to rejoice
over the work of the past 14 months. The plans adopted
at the Annual meeting always furnish me the occasion
for a letter to you. I leave for Pyeung Yang in a few days
hoping to stay until the Spring thaws render the place
uninhabitable. The many bodies only partially decayed will
in the Spring make the atmosphere so foul that it will
be unsafe to stay and Dr. Hall's death has impressed
upon us the necessity for care. According to the state
of my own health this Spring and the condition of
the Country greatly disturbed by presence of Japanese troops, Dong
Haps in insurrection I will make my plans. I am
hoping to spend the Spring in some Country village far
from the Poison of Pyeung Yang and yet in my own
Province but circumstances may prevent in which case
I have thought of spending a little time with Mr. B...
in Fusan where I can not only be strengthened myself but
find abundant opportunities for preaching teaching in connection
with the work of the station there and the work of the
Korean missionaries.

W. W. W.
D. D. W.

Just come in bringing me the news that all the Christians in the north are alive and well tho they have had a hard time of it and are now in great straits. When the Chinese fled from P'yong Yang they made a mad rush through Sui ju killing and robbing Koreans as they fled. Until then our men had remained in Sui ju but at this time in the greatest confusion and danger they all fled to the County taking what they could gather together hastily. They are now in the mountains living in huts of mud & branches where they will suffer considerably this cold weather. Our Evangelist Kim went back to Sui ju some time after the Japanese had taken Lousim. He found them in our house, ^{when he} ~~but~~ attempted to enter he was driven off. I am hoping to get through the Hill from Japanese authorities a permit for him that he may regain possession of our place.

From P'yong Yang to Sui ju along the main road there has been great destruction with the scattering of the whole population. When things will assume their normal condition no one can say. From these men I hear of many who in these times of sore trial and distress are turning to the Gospel with attentive ears and teachable hearts. I fully believe that the Lord will get great glory to Himself out of all these troubles. So far as possible I want to

be on the ground that he may wish me to
as one of his instrument. Mr. Lee has decided
to go with me. Whether I shall be able to go
beyond Peking Yang in order to visit Eui ju remains
to be seen. In your next letter to Mr. or Mrs.
Lee I hope you will let Mrs. Lee know that her
unselfishness in falling in with him for work so that
Mr. Lee can thus spend time in the country, is appreciated.
I believe the Lord has rich blessings in store for our
station when once the way is opened for us to
pursue more regularly our work there.

I wrote you from Peking Yang much about the
situation there. I trust that letter has reached you
in safety. ~~As~~ sorry it was not our house in
Peking Yang which fell into the hands of Christian-Japanese
as W. W. for W. got it but our experience was
considerably different.

On separate sheet I am writing of several matters
connected with the Appropriations.

As a member of the Examining Com. I want to add a
word concerning Dr. Vinton. Should the report of the
Com. call upon you for a letter to Dr. Vinton on the
subject of the language I trust it will be one of
encouragement to him. A little praise just now will
I believe do more for him in that line than any

connected with the Appropriations.

As a member of the Examining Com. I want to add a
word concerning Dr. Vinton. Should the report of the
Com. call upon you as letter to Dr. Vinton on the
subject of the language I trust it will be one of
encouragement to him. A little praise just now will
I believe do more for him in that line than any

Good prospect of Dr. & Mrs. Gifford making successful missionaries.
Mr. & Mrs. Gifford excellent missionaries.
they are altho he needs to be urged to persevere
in though work. His sermon is not yet sufficient
to satisfy the Com. but he has taken hold of
his study in earnest and did far better than the
Com. had any expectation of his doing.

Mr. Winter too has begun to study and it is a
pleasure to me to be able to say that there
is now a good prospect of their being able to
do a work here which will be a successful con-
tributing to the establishment of the Church of Christ in
Korea. I have withheld judgment on this point tho
it has been a question which greatly troubled me.

Of course all this I write confidentially as also
the remark that notwithstanding what I have written
above - we want a new physician for Pyong Yang.
While I am on this line I want to request from
you some word of commendation for Mr. Gifford
who has been developing more & more both in
his power to use the language, & in his love for his
work and for the people. His wife has been a great
help to him and he has grown spiritually. He is
especially useful among the people as a pastor and
as his heart has more & more become interested in
this line of work the Session of the native Church
has this year given him charge of pastoral work.

In re Mr. Gale's ordination

I write thus because I know what a help it is to feel that ones efforts to become more useful in the work are recognized and appreciated. Your letters to me have been most helpful and I thank you most sincerely for them.

I enclose a letter written 10 days ago on the subject of Mr. Gale's ordination, concerning which we should be glad to have a word of advice from you. With continued prayers for you that your health may be continued and that rich blessings may rest upon you

Sincerely yours in Christ
Samuel A. Moffette.
